26-Mar	ACR	BETTER	You Can Hire More ACR Licensing Enforcement Personnel For The Greater Houston Area. As I Understand It, TDLR Has More Personnel In Houston Enforcing Licensing Regulations On Cosmetologists Than ACR Contractors (Two People, As I've Been Told). Houston Is The Most Air Conditioned City In The World, And The Licensing Enforcement Here Is, In A Word, Disgraceful. Utterly. Disgraceful. I Pass Old, Beat Up Trucks Daily On The Houston Freeways Without Tacl Numbers Displayed And Refrigerant Charging Manifolds Swinging In The Back Window, Multiple Bottles Of R-22 Rolling Around In The Back Of The Vehicle Hinting That They Aren't Just Maintenance Personnel. I Believe That There Are Probably A Significant Number Of People Operating As Air Conditioning Contractors In Houston Who Do Not Have A Contractors

There's A Lot Of This Going On Because Customers Are Hiring Them For \$40.00 Hr Or Less. I've Been In This Trade Over 38 Years And This Trade Is Not What It Used To Be. You Have Guys Taking 8 Months Of School, They Book Smart, Get 3 Yr Verification, Take The Test For The License And Then They Go Out At Cheap Rates, And Have No Clue On How To Run A Business. They Normally Out Of Business In Less Than 2 Years But Mean While They're Ruining The Trade.

3-Apr	ACR	CHANGE	I Would Give The Director Of The Department Total Discretion In Deciding On The Reinstatement Of Air Conditioning And Refrigeration Contractors' Licenses That Have Expired. The Current Law Allows For Licenses That Have Expired Within A Maximum Of Three Years To Be Reinstated With The Approval Of The Director. I Believe The Time Limit Should Be Changed To Indefinitely. Each Request Should Be Decided Based On The Contractor's Performance During The Time The License Was Active, Compliance With The Rules And Regulations Of The Contractor's Law, Duration Of The License And Involvement With The Agency In Regards To Public Meetings And Other Activities. Contractors Should Not Be Penalized For Uncontrollable Events Such As Economic Recessions, Competition And Business Failure Due To The High Cost Of Health Care And Liability Insurance Premiums. The Director Should Always Have The Authority To Reinstate The Licenses Of Responsible Contractors Who Provide Quality HVAC Services To The Public Regardless Of Time.
1-Apr	ACR	CHANGE	I'D Say That A Uniform MEP Code, Without Any Options For Municipal Amendments, Would Make Construction Requirements Much Clearer For Engineers And Construction Providers; Just Go With The Most Stringent Quality Of Construction And Take The Unbelievable Confusion Out Of Our Industry Caused By Municipal Amendments!

27-Mar	ACR	CHANGE	I Would Make It Mandatory That Anyone That Sells Air Conditioning Maintenance Contracts Be State Licensed Before They Can Sell These Contracts And I Would Make Sure That They Had An Office In Texas With Licensed Workers Just Like The Rest Of Us. I Am Referring To Out Of State Maintenance Firms That Have No Interest In Texas Other That Taking The Work Away From The Local People.
27-Mar	ACR	CHANGE	Require A/C Tech's To Be State Licensed. The Plumbing Board Requires Master Plumber Licenses For Business Managers And Journeyman Licenses For Installers, TDLR Needs To Do The Same With A/C Installers. Right Now We See A/C Techs With A Few Days Of Training That Are Out Servicing And Installing Furnaces And Refrigeration Units. Contractors Hire These Techs Because They Work Cheap Not Because They Know What They Are Doing.
27-Mar	ACR	CHANGE	Require Property Management To Hire/Hold License Holders To Perform That Work. Many Are Now Expanding Into The Service Business with No License Requirements. That Isn't Fair Competition And Is Not Safe For The Public.

You Pay For Books, And More Books Plus More Money To Work For Another A/C Contractor For Two Years Or More. As An Air Condition Contractor You Have To Invest More Money In Tools, Vans, Communication Equipment, Advertising, Working Capital, Insurance For The Workers, Permits For The Workers, Bookkeeping And Accounting Personnel, Employees Salaries, Lease Of A Building To Start

27-Mar	ACR	CHANGE	N/A

26-Mar	ACR	CHANGE	Require All Class A\B License Holders To Pass A Test Proving They Know How To Do Class A\B Work (Much Like The Shop Part Of The TSPBE Test), I.E. Chillers, Chilled Water, Welding For Process Piping, There Are Too Many Companies That Are Quick To Display An "A" License, But Lack The Expertise And Experience Needed To Do Larger Tonnage Work. It Is Obvious When You Attend A Continuing Ed Class And A Lot Of These Folks Have Never Been In The Field...They Take A Prep Course At The Community Colleges For 10 Weeks That Shows Them How To Figure Out A "Book Test"...No Mechanical Skills Involved.
26-Mar	ACR	CHANGE	Change The Way They Fine Members Without A Warning Them That Something Is Wrong. After To All They Pay For Their Licenses Each Year. Change The That Qualified People Can Take The Test.
26-Mar	ACR	CHANGE	The Two Most Important Thing In The Construction Of The House That You, And I Live In Are The Foundation And The Roof. If Either One Of These Fail, Your House Has Serious Problems. Yet The Crafts That Repair Both Of These Items That Are So Critical To The Life Of The House Have No Regulations, No License Is Required, No Training Is Required, All That Is Needed To Be A Foundation Repair Expert Is A Shovel, A Level, And A Bottle Jack And You Are Magically You Are Transformed Into A Foundation Repair Specialist. The Same Applies To A Roofer. No License, No Training, No Permits Are Required, Just A Ladder And A Hammer. Many Homeowners Are Getting Ripped Off Every Day By These Fly By Night People That Are Not Controlled In Any Way By The State, Yet You Want To Hold All The Other Service Trades Feet To The Fire And Continue To Add More Restrictions And Regulations To Them That Make Their Service Much Harder And More Costly To Perform. You Asked For My Opinion, So There You
26-Mar	ACR	CHANGE	Make The HVAC Test More Difficult, And Have A Higher Score To Pass.
26-Mar	ACR	CHANGE	Hold Suppliers And Manufactures Responsible For; Selling Supplies, Equipment, Gases Regardless Of Whether A Tech Is Licensed. By The State. The Contractor Must Be Licensed. It's The Industry First Line Of Defiance It's Vital To The State - The Industry - The Public And To Contractors Doing It Legally.
26-Mar	ACR	CHANGE	Up Dates On New Installation Deficiencies Found By Inspectors.
26-Mar	ACR	CHANGE	All Is Ok Now; Just Don't Put Anymore Laws, Regs Or Permits On Us. Keep Texas As A Great Place To Live And Work. Not Like Others States That Try To put You Out Of Biz. You Do Need To Make The Test Harder For The Class B Lic. It Is To Easy And Letting Trash Into The HVAC Biz. You Also Need To Change The Test Questions Every Two To Three Years On The Class B Test Because They Are Classes That Is Teaching The Test Allowing Trash Into The HVAC Biz, I Have Proof Of This.
26-Mar	ACR	CHANGE	Nothing I Can Think Of.

26-Mar	ACR	CHANGE	Require Licensing, Not Registration, Of ACR Technicians, Much The Same As The State Requires For Plumbers. There Are Far Too Many "Technicians" Driving Trucks Around That Have Absolutely No Classroom Training At All Who Are A Danger To Other Technicians, Their Customers, And The Public In General Through Their Ignorance Of Proper, And Legal, Repair Procedures And Building Codes. These People Need To Be Forced Get Proper Training Or Forced Out Of The Industry To Improve It.
26-Mar	ACR	CHANGE	Faster Response Time On Unlicensed Contractors.
26-Mar	ACR	CHANGE	Keep Stricter Control On These Yahoos That Are Installing AC Systems Without Permits And Licenses. Maybe The Wholesale Distributors Should Be Targeted To See Who They Are Selling To.
26-Mar	ACR	CHANGE	Continuing Education, I Don't Mind Continuing Ed But I Would Like To Take A Course That We Need Not How To Do Sanitation, Everybody Should Know About Sanitation Before They Get Out Of Beauty School.
26-Mar	ACR	CHANGE	Law That Allows Cities To Require A Licensed Contractor To Pay A Fee Every Year To Be Reregistered Contractor There Just To Be Eligible To Pull Permits
26-Mar	ACR	CHANGE	Individual Licensing - Like The Electricians And Plumbers. I Am One Man Out In A Truck And Have To Maintain A Class A Contractors License, But So Does The Service Co. I Used To Work For That Has 475 Trucks On The Road. There Should Be, At Lease Some Minor Compromise, Like 1 License Per Crew. There Is Just No Way One Licensed Personnel Can Supervise 4 - 500 Workers, And Assure All Is Being Installed Or Repaired According To Code.
26-Mar	ACR	CHANGE	I Don't Think There Are Any Major Change Necessary, Just Enforcement Of The Laws And Rules That Presently Exist And Perhaps A Special License Renewal Rate For Retired HVAC Contractors. Who Desire To Keep An Active License?
26-Mar	ACR	CHANGE	See Above
26-Mar	ACR	CHANGE	License Fees Should Be For 2 Or 3 Years. Contested Violations Should Be Heard In Major
26-Mar	ACR	CHANGE	Make The Process Easier To Apply For A Contractor License
26-Mar	ACR	CHANGE	Either Eliminate The Useless 8 Hr CE Requirement; Or, Ban Online Courses And Have Actual Seminars That Would Actually Teach Something Useful.
26-Mar	ACR	CHANGE	Make The Testing More About Your Skills Than Your Ability To Find Information In A Code
26-Mar	ACR	CHANGE	Hold Accountable The City Of Houston For Not Asking Or Collecting Fees For Non-Licensed Jobs That Are Being Violated And Require An (A) Licensee HVAC Contractor To Repair Or Modify Chillers, Duct Vent From Kitchen Grill/Boiler Room Etc. Seems Lots Of Money Not Being Collected To The Right Department. The City Of Houston Is Hurting For Money-Pay Attention To The Simple Laws. When An (A) Licensee Contractor Does Repair Work, But Does Not Have His Licensee Assigned To That Business 4000 + Employees, Isn't That A Violation, Because That Company Should Only Have That (A) License Assigned To That Company-No Public

26-Mar	ACR	CHANGE	Stop Allowing Equipment Sales Through "National Accounts" To Corporate Entities. Force Them To Sell To A Licensed Contractor
26-Mar	ACR	CHANGE	Contractors Installing Vent Hoods Should Have To Have A HVAC License If The Structure In Which They Are Installing The Hood Is Conditioned Space. Increase Continuing Education Requirements But Make License Renewals For 2 Years. In Large Urban Areas Contractors Have To Submit License And Insurance Documents To 50 + Cities.
26-Mar	ACR	CHANGE	Give Authority To TDLR To Enable You To Penalize Moonlighters With Jail Time.
26-Mar	ACR	CHANGE	I Would Make The Minimum Experience Required To Be A License Holder 10 Yrs, Inexperienced License Holders Can Contribute To Giving Us All A Bad Reputation To The Public
26-Mar	ACR	CHANGE	First Time Mandatory Fine For Working Without A License Or Insurance The Apartment Industry Should Be Treated The Same As Any Other Commercial Business With No Exemptions
26-Mar	ACR	CHANGE	Renewing My License Every Year.

26-Mar	ACR	CHANGE	No Annual Class
26-Mar	ACR	CHANGE	Increase The License To A Two Year Renewal
26-Mar	ACR	CHANGE	Continuing Education. I May Be Wrong But I Believe Every 3 Years Would Be Plenty Even If The Hours Required Were Increased
26-Mar	ACR	CHANGE	I Would Like To See Only 4 Hour Continuing Education For The Air Conditioning License.
26-Mar	ACR	CHANGE	Make Boiler Data Easier To Print Out. I.E. I Would Like To Print Out All Of San Antonio I.S.D. Boilers Out With One Click Of The Mouse. Make Continuing Education Providers Be Less Redundant. Seems Like Same Material Every Year.
26-Mar	ACR	CHANGE	Allowing Architects To Size And Design HVAC Systems.
26-Mar	ACR	CHANGE	8 Hours Of Continuing Ed. It Becomes Boring Hearing Same Info.
26-Mar	ACR	CHANGE	CE 8 Hours, Make No More Than 6 Years The Only Benefit Is To The Providers Who Wanted It 8Hours Over The Objection Of The Few Contractors & AACA That Where At The Review That I Attended.
26-Mar	ACR	CHANGE	Enforcement
26-Mar	ACR	CHANGE	None
26-Mar	ACR	CHANGE	Renewals Are Too Often, Should Be Every 2 To 3 Years Like All Other Licenses.
26-Mar	ACR	CHANGE	No Changes Recommended
26-Mar	ACR	CHANGE	No Complaints
26-Mar	ACR	CHANGE	Continue Grandfathering The "C" Certification For Older License Holders

26-Mar	ACR	CHANGE	Enforcement Of Ammonia Refrigeration Licensing. You Go After HVAC But When A Facility Uses A Contractor Who Is Not Licensed In A Rural Area When 100,000# Of Anhydrous Ammonia Is Used, There Are Thousands Of People At Risk And Nothing Is Done. Separate Out Industrial And Ammonia Refrigeration, Most HVACs' Are Not Capable Or Geared To Work On These Systems. Hold Facilities Responsible For Checking Licenses. Stiff Penalties For Hiring A Non-Licensed Contractor!
26-Mar	ACR	CHANGE	Grandfather The License If You Have Been In The Business For 20 Years Or More. Where The MCE Would Not Be Required
26-Mar	ACR	CHANGE	Equalize The Recertification Course Lengths. I.E. Electrical Is 4 Hours, HVAC/R Is 8 Hours
26-Mar	ACR	CHANGE	N/A
26-Mar	ACR	CHANGE	Stiffer Penalties For Unlicensed Contractors.
26-Mar	ACR	CHANGE	Do Not Attack Contractors Who Fail To Obtain A City Permit, But Do Hold A Proper State License.
26-Mar	ACR	CHANGE	A Licensee Should Be A Person That Has Experience In The HVAC Industry And Not Just Someone That Can Pass A Test. Why Is It Not Right For A Person With A Back Ground To Work In Residential HVAC? But A Person With A Back Ground Can Become A Licensee And Run A Company.
26-Mar	ACR	CHANGE	Not Sure
26-Mar	ACR	CHANGE	Venting Of Refrigerant Needs To Be Made Illegal In State Law. Laws Need To Be Enforced By TDLR.
26-Mar	ACR	CHANGE	Require 10 Years Of Verifiable Work Experience. 3 Years Just Makes These Guys Jump Around With Other Companies Or Get Into A Trade With A License That They Have No Clue About.
26-Mar	ACR	CHANGE	Can't Think Of Any Particular Problems
26-Mar	ACR	CHANGE	Better Enforcement Of Unlicensed Activities
26-Mar	ACR	CHANGE	Make Apartment Complexes And Other Such Properties Hire Licensed People To Do Their AC Work.
26-Mar	ACR	CHANGE	Government Does Not Provide Services - It Performs Duties. I Am Offended By Government Agencies Describing It's Duty As A "Service". In The Free Market, Payment Is Made In Consideration Of Services Rendered. There Is No Consideration For Payment To A Governmental Agency Where Payment Is Extracted By Force. TDLR Is Not In The Service Industry.
26-Mar	ACR	CHANGE	Has Anyone Ever Suggested Shorting The Continuing Education Hours From 8 To 6? We May Be The Only Group That Goes For 8 Hrs. We Could Take A Little Bit Out Of Each Category And Shorten The Time Span.
26-Mar	ACR	CHANGE	Yrs. Of Qualifying Exp. Or Penalty For Unlicensed Contractors

24-Mar	ACR	CHANGE	I Think That There Should Be A Change With The License. I Think That There Should Be A License For Air Conditioning And Another For Refrigeration. A Person Should Only Have A License For Both If He Has Passed The Test For Both. I Think That Would Stop Someone Being Able To Pull A Permit To Do Work That They Are Not Licensed To Do. I Think That Would Protect The Public
24-Mar	ACR	CHANGE	It Is All Good That's What I Think
23-Mar	ACR	CHANGE	1. I Would Like The TDLR To Understand That The Outdoor Section Of An Air Conditioning System Is Not An Appliance. It Is A Component Of A System. No Different Than A Compressor, Fan Motor Or Thermostat, The Outdoor Unit Is A Component. 2. The Design Of An Air Conditioning System (Ductwork Included) Is The Most Critical Part Of The Process Takes The Most Knowledge And Skill And Should Require More Extreme Qualifications...Such As A Separate Exam/Endorsement To The License. A New Home Should Not Be Allowed To Be Built Without A Licensed HVAC Person Approving The Plans. By The Way Did You Know Residential New House Plans Never Have A Layout Page Dedicated To The HVAC?
23-Mar	ACR	CHANGE	The License Card States That The Cardholder Is An Air Conditioning And Refrigeration Contractor. To An Uninformed Customer Who Doesn't Know Anything About The Endorsement Letters On The End Of The License Number It Can Be A Deception. I See Service Trucks With An "E" Endorsement Advertising Ice Machine Repair On The Sides Of Their Vehicles.
23-Mar	ACR	CHANGE	Enforce Your Laws
23-Mar	ACR	CHANGE	I Would Just Be Happy With The Ones We Have Being Enforced Better! Also I Was In A Lic Prep Class And Most The Guys In The Class Did Nothing To Add Professionalism To Our Industry! It Should Be Required That A Person Hold A Certification For 5 Yrs B4 Being Allowed

Not A TDLR Problem, But Definitely A Troubling Societal Problem. As A Result, I See Pay For Highly Skilled ACR Techs Going Up More Over The Next Few Years Due To Lower Availability Of Trained, Skilled Workers. 3-Apr	ACR	WELL	Continuing Education Requirements

3-Apr	ACR	WELL	Enforcement Efforts Have Increased Over The Years. The Fines And Penalties Levied Against Unlicensed Individuals And Companies Are Much More Severe. These Judgments Serve As A Harsh Deterrent To Those Who Contemplate Contracting With The Public Without The Proper Credentials, And Boost The Morale Of Contractors Who Comply With The Rules Of The Agency.

26-Mar	ACR	WELL	Communication
26-Mar	ACR	WELL	I've No Interaction With TDLR Outside Of TDLR's Annual Shakedown For A Portion Of My Pay For A Useless Piece Of Plastic That I Must Carry With Me. This Program Has Absolutely, Positively No Benefit To Me As A Professional And Is Currently Nothing More Than A Cash Grab By TDLR. Anyone Can Pay A Few Dollars And Register As An ACR Technician. It's About As Difficult As Becoming A Clergyman In A Phony Religion Via The Internet.
26-Mar	ACR	WELL	Making The Website Easier To Navigate And Use.
26-Mar	ACR	WELL	Keeping Us Informed Of Industry Changes.
26-Mar	ACR	WELL	Getting Everything Done Faster.
26-Mar	ACR	WELL	Collecting Your Money! Y'All Don't Miss A Beat. And With The Ability To Repeal, Is Almost A Certainty You Will Never Fail To Receive Your' Pay. At Last Renew, I Found I Could not Renew If I Had Committed Crimes In This State Within The Last Renewing. This Is A Step In The Right Directing Blanket Renewing No Matter What! ...That Was A Smart Move In The Right Direction, But Common Sense Tells Me A Person Like This Probably Is Not Going To Be Truthful With His/her Answers Though.
26-Mar	ACR	WELL	Except For No. 6 Below, I Believe All Is Well In Texas
