Having Electricians Come To A Class Room Once Every Three Years To Get First Have The Latest National Code Changes Is Also A Good Idea. Onsite Supervision Of Apprentices Needs To Be Fixed As The Advisory Board Voted At The February 16Th Meeting. Being More Assertive With Local Jurisdictions That Have Not Adopted The Latest Addition Of The Nec To Do So As Soon As Possible So Every Contractor Is Installing Electrical Products And Systems That Are To The Basic Safety Requirements Of The 2011 Nec.

####		ELC	BETTER	Do A Little Research Into The Code Changes With Particular Interest On What Impact Changes Will Have On The Electrical Industry In The State. The Code Writing Has A Legitimate Concern For Safety But Is Also Influenced By Industry Manufacturers. This Influence Finds More Basis In Economics Rather Than What Is Best For The State Of Texas. Check With Municipalities And Balance Their Concerns/Needs With Nature Of The Changes. Input Is Great And Should Be Encouraged But Limit The Implementation Of Changes To Some Annual Benchmark Instead Of Midyear. Consider Extending The State Code Cycle To A Year After The Code Is Released To Allow For Adaptation To The Changes And The Associated Costs. Put An End To All Ideas Stemming For The Past Grandfathering Licensing Efforts. Some Still Think That Option Is Still Available.

####		ELC	BETTER	Promote TDLR Nation Wide And Try To Bring Big Company To The State So They Can Employ The Man And Women That Texas Has.
####		ELC	BETTER	There Are Many Things TDLR Could Do Better To Give Some Support To Your Licensees. The Problem Is The TDLR Is So Busy Bringing New Trades And Their License Fees Under Their Wings I Guess Your Ability To Give Any Support Become More And More Diluted. We Need TDLR To Educate The Public In Plain English About The Laws That You Govern Us By. I Could Care Less About Regulations For Barbers Or Auctioneers But I Do Wish That The General Public Understood The Electrical Law In The State Of Texas And How It Effects Them. We Are Competing With Handymen, Remodelers, Lighting Companies, House Flippers Etc. That Ignore The Rules, Jeopardize The Lives Of The Public And Get Away With It Scott Free! When TDLR Changed The Electrical Rules That Allowed Unlicensed Individuals To Install Lights And Fans Etc That Were Only Wire Nut Connections To The New Law Requiring All Encumbrances To A Electrical System To Be Done By A Licensee Electrical Contractor There Was A Reason For It. If You Give Them A Inch They Will Take A Mile. The Handy Man Is Hired To Install A Fan And The Home Owner Wants Him To Make The Fan And The Light Work Independently. No Problem He Can Make The White Wire A Switch Leg And Just Make The Bare Ground The Neutral. They Are The Same Thing Right???" I Do Get Some Work
####		ELC	BETTER	Better Requirements For CEU Hours. Class Is Joke

####		ELC	BETTER	Better Customer Service, Allow People To Talk To Their Case Worker When Trying To Get Licensed, The Receptionist Does Not Have All The Answers Much Less The Correct Ones And From My Experience She Has No Idea Of What's Going On And Should Just Be The Receptionist! You Need To Have Better Knowledge Of Your Own Rules And Regulations, Make All Those Who Were "Grandfathered" Into Their Licenses Take An Actual Test!!!! I Think You Will Find That Many License Holders In This State Really Should Not Have A License At All Due To Your Grandfather Clause A Few Years Back. You Could Learn A Lot From Other States Programs!!!! Maybe You Should Research Other States Who Have Had A State Licensing Program And Get Help From Them!
####		ELC	BETTER	Enforcement, More Public Awareness Programs
####		ELC	BETTER	I Have Noticed That I Have Been Presented A Ever Growing Amount Of Forged Electricians Licenses, Mainly Journeyman Type Ones. ####		ELC	BETTER	I Believe That Field Experience Is Important Asset To The Overall Electrical Contracting, However, As A Electrical Contractor And My Goal Was To Become A Owner I Also, Believe Education Is A Key In The Success Of A (Any) Business. To Qualify To Take The Master Exam One May Have A Mix Of 4 Year Degree And Field Experience, Not Just A Journeyman License.

####	ELC	BETTER	Hire More Enforcement People. The Level Of Enforcement Is Now None. Most Of The Cities In Texas Still Do Not Have The 2012 N.E.C. In Force. So Most Of The Electricians Do What Ever They Want. It Makes It Real Hard To Bid When The Nec Now Requires A \$45.00 Breaker Where It Was \$3.50. I Was Under The Impression That Everyone Was On The Same Page And The State Was Writing It That Is Not The Case. So I Pay My Money And Watch As Non Contractors And Contractors Alike Carry On As Usual. I Read The Complaints/ Findings; They Are For The Most Part A Joke. On Any Given Day I See Sub Standard Work By People Who Do Not Have Any Idea What The Job Is Or Care. Most Of The Complaints I Hear I Refer To The State And I Am Sure The Get There But Nothing Ever Shows Up. There Is No Place For The Public To Go To Check On A Company Before They Get Hooked.

####		ELC	BETTER	Enforcement. This Enforcement By Getting Cities To Restrict Permitting To Licensed Individuals Is Painful For Those Of Us Paying For Being Legal. Few Cities They Have An Enforcement Program Where Unlicensed Persons Suffer Any Penalty. Since TDLR Has Little Enforcement Staff The Cities Need To Be Shown The Value In Providing The Grassroots Enforcement Efforts Needed To Strengthen Licensing.
####		ELC	BETTER	Help Cities Enforce The Law. On A Different Note: It Appears That Professional Test Takers Are Making a lot Of Money. Why Should Our Test Be Any Different Than Taking Sat Or Act? We Need Make Sure Those Taking The Test Are Whose Who They Say They Are.
####		ELC	BETTER	Start Requiring So Called "General Contractors" And Those That Represent Themselves As Builders, Barn Builders, And Remodeling Contractors To Get A License. There Needs To Be Some Way For Everybody To Follow The Progress Of A Complaint Being Filed. ####	ELC	BETTER	Enforcement! There Needs To Be A Mechanism For Legitimate Electricians To Report Unlicensed Persons Performing Electrical Work In The State. I Personally Think The State Should Accept Volunteers From Each County And/or City That Are Licensed Electricians In Good Standing With The State To Act As Investigators And Or Enforcement Officers To Protect The Industry From Unlicensed Persons. I For One Would Be Willing To Take Some Sort Of A Class Provided By The State Like City Inspectors Do And Be Able To Write Court Summons Or Tickets To Those Who I Catch Performing Electrical Work Without A License.
####	ELC	BETTER	On-Line License Testing Needs To Be Offered.
####	ELC	BETTER	Every Thing Is Good.
####	ELC	BETTER	More Stings To Find Unlicensed Individuals
####	ELC	BETTER	There Could Be A Direct Person To Speak To In Every Major City In The Electrical Trade.
####	ELC	BETTER	A Few Areas: Enforcement - In My Area There Are Still Unlicensed Electricians Taking Advantage Of People Who know No Better. Additionally, Some Contractors In The Area Are Allowing (As I Hear It) Employees To Work Without A License. Silsbee Falls Into The Greater Beaumont/Pt Arthur/Orange Area. Also Have Been Seeing Out Of State Trucks With No Markings Carrying Electrical Supplies In Quantities To Do Small Jobs. No Oversight Down Here When It Comes To Enforcement.

####	ELC	BETTER	Unfortunately Here In South Texas (McAllen Brownsville) .The Presence Of The TDLR Is Not Felt. We Definitely Need You To Open An Office Down Here Every day I See People Performing Work With No Licenses, No Markings On Trucks And More Than Likely No Insurance. Cities And Counties Themselves Are To Blame. They Are Issuing Permits To Master Electricians. As To My Understanding, Only A Electrical Contractor Can Pull A Permit Now. I've Told Them About It, But They Don't Care.
####	ELC	BETTER	The Website If Not Very User Friendly Like Trying To Find Forms. Wish Texas Would Work With Other States So Our Licenses Would Precipitate With Others More.

####	ELC	BETTER	You Could More Strenuously Enforce Rules & Regulations
####	ELC	BETTER	Crack Down On The Contractors That I Have To Compete Against That Care Less About Having To Be Licensed. Keep On Doing Stings, Throw Them Is Jail When You Catch Them Being Unlicensed & Make A Bigger Noise Of The Ones You Nail So Others Can See The Odds Of Them Getting Caught Are Pretty Good.
####	ELC	BETTER	With Out A Doubt More Enforcement On Nonlicensed People And Companies In The Electrical Industry. Stop Opening The Electrical License To Grand Fathering, The Plumbers Have Never Been Opened. Dramatically Increase The Number Of Inspectors Around The State Including Cities.

####	ELC	BETTER	Do More Sweeps Of Unlicensed Electricians If Possible. I Know You Are Probably Short Of People But I Still See Lots Of People Working I Suspect Are Not licensed. I Have Even Seen People Working At Night And On Sunday. Very Suspicious.

####	ELC	BETTER	Allow A Renewal To Be Completed More Than One Month Prior To Deadline. Having Been In Iraq And Out Of State There Are Needs For A License To Have An Expiration Of More Than 6 Months To Be A Valid Assruance Oif Qualifications.
####	ELC	BETTER	Not Send 19 Of 20 Emails Sent Me.
####	ELC	BETTER	Start A County Inspector Program.
####	ELC	BETTER	More Spot Checking Of Electrical Licensing. With License Verification Is Dumped On The Local Inspectors , Not Much Happens.
####	ELC	BETTER	More Local Enforcement. Too Many Vehicles Displaying Tecl Numbers And No Names. Monitor Vehicles At Electrical Suppliers To Catch Unlicensed Individuals Performing Electrical Work.
####	ELC	BETTER	Enforcement. (Need More People.)
####	ELC	BETTER	Try To Get More Of The Unlicensed Contractors Off The Jobs & Come Up With Day Workers Registration For Labors For Licensed Contractors.
####	ELC	BETTER	There Needs To More Regulation On People Perfoming Electrical Work Wihtgout A License. I See More And More Electricians Doing Work That Are Not Licesned Throughout Several Counties.
####	ELC	BETTER	Rural Inspections Rural Inspections / Homes Are Being Built With No Requirements Required By Utility Companys. They Will Connect No Matter Who Did The Work.
####	ELC	BETTER	You Can Change The Renewal To 3Years Instead Of Every Year. If We Are Going To Be Regulated By The Code, It Changes Every Three Years, You Have Other Professions That Have Longer Renewal Periods. You Can Also, Get Out Of Code Enforcement, There Is Already A System For Regulating Us In This Area, You Are Just Another Layer Of Government Making It More Difficult To Make A Living. If We Are Licensed Then We Have A Moral Obligation To Perform Our Work With Integrity.
####	ELC	BETTER	I Have Sent In A Question In The Past And Not Received An Answer ?
####	ELC	BETTER	Maybe Break Down Changes With Dealing With The Nec. Into A Seprate Pamphlet Or Some Other Means
####	ELC	BETTER	Make Changing The Address For A Residence. For Example, No Hyphens Are Dashes Are Allowed. Some Addresses Have Dashes In The Address.
####	ELC	BETTER	Every Thing Looks Good To Me
####	ELC	BETTER	More Stings And Ways To Stop Unlicensed Individuals From Doing Work.
####	ELC	BETTER	Send Your Inspectors To The Small Cities To Find Out Who Is Conducting Inspections And Whether They Have Credentials. I've Seen Some That Couldn't Spell Electrical If You Spotted Them 4-Letters. My Thoughts Is That The City Saves Monies By Using Part Time People Only.

####	ELC	BETTER	Enforcement. In The City Of Houston. N.A. Wyman, The City Of Houston Cheif Electrical Inspector Claims He Has No Jurisdiction Of Installations By The Metro Rail Unles They Allow It. Somethings Wrong With This Picture. Have Planning Metings At Other Times And In Other Key Cities. Most Of Us Find It Hard To Give Up A Days Pay Along With Expences To Go To Austin.
####	ELC	BETTER	Communicate The Direction TDLR Is Going With Adoption Of New Code Standards, Enforcement Of 2011 Code Requirements Was Almost Unheard Of In The Contractor World, Maybe A Mailer Would Work Better?
####	ELC	BETTER	Statewide Electrical Inspectiions Were A Failure. Next Time, Make It Possible For Master Electricians And Master Plumbers To Inspect Following Some State CERTification.
####	ELC	BETTER	Make Your Presents Known Alittle More..Newspapers..Mags..Tv..a lot O People I Have Referred To Your Group Didn't Even Know Of Your Department..,
####	ELC	BETTER	There Is A Need To Better Police Handymen From Doing Electrical Work. I See Many Handymen Vehicles Advertising Electrical Work And Have No License No. Posted.

####	ELC	BETTER	Raise The Standards For Electricians. I Feel That More CEUs Should Be Required To Maintain A License.
####	ELC	BETTER	Nothing
####	ELC	BETTER	Have A Link To Other Lic Agents. Example: Link To Fire And Safty Lic. Section.
####	ELC	BETTER	Pass A Law That Will Let Journeyman Licenses Can Perform Work On There Own,Only State That Won't Let Them !!!!!
####	ELC	BETTER	I Have No Complaints Or Suggestions To Improve The Process.
####	ELC	BETTER	Not Sure. All My Interactions Have Been Fairly Easy And Quick. All Seems Positive.
####	ELC	BETTER	Understand The Different Reasons People Get A License.
####	ELC	BETTER	Just Keep Growing In The Direction It Has Been Going. I Like How Your Stings And The Investigation Teams Work, I Just Think You Need To Work On The Contractors For Industrial Facilities And Plants, As I Have Seen Some Lacks Under Various Areas, As In Having Unlicensed Contract Techs Doing Electrical Inside Of Industrial Boundries. You Can Contact Me, If You Feel A Bit More Information Or Questions Are Needed.
####	ELC	BETTER	I Travel A Lot And There Are People That Can,T Even Speak English ,And Some With Out License I Believe, But Have The License Set For (2) Years Not Every One.
####	ELC	BETTER	N/A
####	ELC	BETTER	Send Email Notices To Licenses Holders In Advance To Renew Licenses And C.E. Required.

####	ELC	BETTER	Have State Electrical Inspectors. You Guys Are Leaving It Up Too Cities Too Police Outside There Jurisdictions. By Law We Can't., Also If We Catch Them In City Limits, All Fines Go To You Guys, If We Catch Them The Fines Stay With The City.
####	ELC	BETTER	Get A Solar Electrical License. It Is Way Past Do
####	ELC	BETTER	I Have Seen Over The Years Such An Improvemt Of The Quality Of Service That It Is Very Hard To Say What Can Be Done Better.
####	ELC	BETTER	Have More Presence On A Local Level To Cathc More Unlicensed Electricians.
####	ELC	BETTER	A 2 Year Electrical License Would Be Nice.
####	ELC	BETTER	Make The Site User Freindly..... Electrical Site Nesds A Easily Recognized Icon For Rules, Regulations, License Requirements, Renewals, License And Continued Education Search. Most If Not All Of These Are On The Website, But You Have To Spend Too Much Time Looking For Them. Make The Icons Bigger And More Noticeable.
####	ELC	BETTER	Na
####	ELC	BETTER	Monitoring And Regulation. I Have Been Working This Program Since It's Inception And Find Unlicensed And Uninsured Operators Are The Single "Thorn In The Side" Above Any Other Issue We Work With. It Is Impossible To Operate A Compliant Structure And Compete In The Market That Uses Unlicensed And Often Illigal Labor On The Job Sites. As A General Contractor I Monitor Operation And Bidding But Just Do Not Offer Bids Against Some Competitors.
####	ELC	BETTER	Not Allow Individuals Who Are Not "Licensed Contractors" To Sub-Contract Electrical Work.
####	ELC	BETTER	Make Sure That People Inspecting Electrical Work As Third Party Inspectors Take Continuing Education And Carry Some License Showing They Meet A Minimum Requirement Stating They Are Qualified To Do So.
####	ELC	BETTER	Your Group And Processes Are Continuously Changing And Evolving To The Constantly Changing Codes And Industry. I Say Just Keep Up The Good Work!
####	ELC	BETTER	Promote Work Education
####	ELC	BETTER	Maybe More Electrical Inspectors To Enforce The Companys That Are Breaking The Law.
####	ELC	BETTER	More Stings Locally. As In Dallas Area.
####	ELC	BETTER	Prosecute Faster, And With Larger Fines To The Journeymen And Apprentices That Inherently Know The Rules.
####	ELC	BETTER	More Code Enforcement
####	ELC	BETTER	Better Communication
####	ELC	BETTER	Provide An Alternate Means For Proof Of Hours Worked. Since Hours In The Field Are Essential For A Journeyman License, There Should Be A Process, Other Than Just Reliance On A Master Electrician's Signature, By Which Earnest Apprentice Electricians Can Be Qualified For Examinations.

####		ELC	BETTER	An Online Complaint Form, Which Is Either Anonymous Or The Person Can Leave Their Name. In Either Instance A Short Response From The Investigation Findings Or Further Questions Can Be Asked. Remember When We Turn Somebody In, It Is Usually First Hand Information, And We Will Suffer The Wrath Of The Boss.
#####		ELC	BETTER	My Idea Was To Go Directly To The Master Electrician Test, But TDLR Does Not Allow You To Do This. TDLR Wants Me To Hold A Journeyman License For 2 Years And Then Go To Master License Test. From My Point Of View Is Not Fair To Be Waiting 2 Years With A Journeyman License When I Can Easily Prove That I Have The Required Experience And Requirement And Have Worked More Than 30.000 Hours In The Electrical Field. This Step Is What I Believe Is Wrong And Should Be Modified.
####		ELC	CHANGE	Renewal Every Two Years .
####		ELC	CHANGE	None At The Moment But Would Like To Be More Involved
8-Apr		ELC	CHANGE	Not Make Test Questions Difficult
8-Apr		ELC	CHANGE	Make The Umbrella Thermal License Card With A State Of Texas Seal Instead Of The Umbrella...Would Look More Official
7-Apr		ELC	CHANGE	Enforce The Laws That State No One Shall Do Electrical Work Without A License. A Lot Of Companys In The South Texas Hire Workers With No License And No Common Sense. Earning Little Pay. Taking Away Jobs From People Who Went To School And Who Took The Test.
7-Apr		ELC	CHANGE	Keep Journeymen / Apprentice And Include Another Title . This Will Help When You Apply For A Job An Apprentice Will Be For One With 1 To 2 Years In The Trade When You Have 5 To 6 Yrs They Want To Pay You Like If You Have 1To 2 Yrs With No Experians
6-Apr		ELC	CHANGE	Keep Doing What Your Doing.
6-Apr		ELC	CHANGE	Electricians Should Be Able To Replace Electrical Components On Air Condition Units. You Allow AC Techs To Connect And Reconnect AC Units (Which They Are Not Qualified To Do) You Allow Plumbers To Connect And Reconnect Water Heaters(Which They Are Not Qualified To Do). You (And The Service Tech) Have No Idea How Many Times The Units Are Changed And The Proper Electrical Circuit Is Not Installed Due To The Change. These Other Types Of Contractors Simply Reconnect The Existing Circuit, Not Knowing The Hazards. Ie: Bad Or No Ground, Ampacity Requirements Etc. Many Times We Get Service Calls To Check Out An AC Or Elec Wh Breaker. Many Times On The AC It Is Just The Contactor, Or On The Furnace, It Is Just A Bad Ignitor. Also We Could Install Hard Start Kits. But As The Laws Are, We Cannot Even Purchase These Items. This Would Also Keep The Customer From Paying For 2 Service Calls.
5-Apr		ELC	CHANGE	More Stringent Regulations On Background To Protect Consumers At The State And Federal Level.
5-Apr		ELC	CHANGE	First Enforce The Ones On The Books Today

5-Apr		ELC	CHANGE	Na
5-Apr		ELC	CHANGE	Nothing
5-Apr		ELC	CHANGE	Vehicle Signage Is Archaic And Invites Theives And Con Artist To Target Comany Vehicles
4-Apr		ELC	CHANGE	Rule 73.10.7 Definition: Onsite Supervision; Add To The End Of The Last Sentence, "And Must Be Present At Each Site Or Residential Subdivision". This Was A Recomendation Of The TDLR Electrical Advisory Board. I Support This Rule Revision Proposal.
4-Apr		ELC	CHANGE	Make A Master Degree Avalaible, Decrease In Licensees,
4-Apr		ELC	CHANGE	What Ever Keeps My Info Open To The Public. I Can Understand Why You Would Want My Name And License Number To Be Public But My Phone Number And Address Should Take A Little Justification To Get. If It Is For The Sole Purpose Of Identification, I Would Gladly Swap A Photo Of Myself To Keep My Number And Address Private.
3-Apr		ELC	CHANGE	All Laborers In Construction Be Licensed. And They Have To Take Continuing Education Every Year Also.
3-Apr		ELC	CHANGE	Making Harder For Illegels To Apley
3-Apr		ELC	CHANGE	(7) On-Site Supervision--Exercise Of Supervision Of Electrical Work Or Electrical Sign Work By A Licensed Individual Other Than An Electrical Apprentice. Continuous Supervision Of An Electrical Apprentice Is Not Required, Though The On-Site Supervising Licensee Is Responsible For Review And Inspection Of The Electrical Apprentice's Work To Ensure Compliance With Any Applicable Codes Or Standards. Add: And A Journeyman Must Be Present At Each Site And/Or Residential Wireman At Each Residential Subdivision.
3-Apr		ELC	CHANGE	More Effort Would Be Expended To Verify The Experience Of Applicants Require A Licensed Electrician On Ever Site Where Apprentices Are Working
2-Apr		ELC	CHANGE	If A Person Has Held An Journeyman Electrician License For 5 Or 10 Years, There Should Be No Exam Or Extra Forms To Obtain A Master Electrician License. Only Pay The Required Fee. I Know People Who Have Master Electrician Liscenses Who Have Never Been Electrician's. They Received A License By A Grandrather Clause When The State First Started Issuing Licenses.
2-Apr		ELC	CHANGE	Lowering The Hours Needed To Qualify For Journeyman Or Masters
2-Apr		ELC	CHANGE	One Company Should Be Able To Have Multiple Master License Holders Of Record. This Would Enable A Company That Does Business In Multiple Regions Of The State To More Easily Register With The Different Municipalities.
2-Apr		ELC	CHANGE	Having To Display Our Information On Our Vehicles That We Are An Electrical Contractor. Our Trucks Are Sitting Targets Now That Everyone Knows What Is In Our Trucks Or Vans. We Have Been Broken Into Several Times Since This Rule Has Gone Into Effect. Perhaps, It Could Be Targeted To Those That Do Service Work. We Are New Construction.

2-Apr	ELC	CHANGE	A Two To Three Year Renewal, And Get The People Off The Jobs That Are Not Lidensed, It Is Dangerous For The Worker And The Coustomer!
1-Apr	ELC	CHANGE	Make Am Industrial Catigory To Electricial Lissing
1-Apr	ELC	CHANGE	More Rural Inspectors
1-Apr	ELC	CHANGE	Put An Investigator In Every County
1-Apr	ELC	CHANGE	CE Classes Only When A New Code Is Released And Hve An 8 Hour Course; TDLR Should Get Involved In Inspection Process
####	ELC	CHANGE	Change The Advisory Board Make Up. Good People Are On It But The Politics Is Not How Any Other State Does It. We Need An Industrial License. The Present Nor Nccer Covers What Is Needed.
####	ELC	CHANGE	All Electrical Work Done In Industial Plants Be Done By Licensed Electrician Holding Texas License.
####	ELC	CHANGE	I Would Like To Make The Investagation Dept. More Able To Catch Guys Doing Elect.Work Illegally.I Would Be Glad To Work For The TDLR Doing This
####	ELC	CHANGE	Having To Take 4 Hour Class To Renew License Every Year Is Too Costly. Being A Master Electrician I Am Constantly Keeping Up With Codes And Compliances Thru My Nec Code Book Anyway, Taking Code Class Every 2 To 3 Years Would Be Sufficient Enough.
####	ELC	CHANGE	Nothing
####	ELC	CHANGE	More Officials In The Field Catching Unlicensed Contractors Operating Out Of Their Trucks And Underbidding Legitimate Contractors, Due To No Overhead And Making Serious Mistakes And Poor And Unsafe Practices That Can Cause Fires And Injure People.
####	ELC	CHANGE	The Guidelines That Are Set Up Presently Are Appropriate As Far As I'M Concerned.
####	ELC	CHANGE	Reduce The Time Of Studying To Get A License, Or To Give A Test To Who Ever Has Experience On That Particular Career.
####	ELC	CHANGE	Reduce The Fee For A Replacement License. It Really Doesnt Cost TDLR \$25 To Print A New Card. That Is Gouging.
####	ELC	CHANGE	At The Seminar That I Go To Every Year (That Elliott Electric Supply Holds In Longview) Quit Talking About Grounding Every Year For 4 Hours. Talk About Something New And Interesting Like Solar Panels Or Wind Power; Anything But Grounding For 4 Hours Strait.

####	ELC	CHANGE	We Have A Big Problem In The Waste Water Industry. Aerobic Sewage Treatment Installers Are Doing Their Electrical Work Themselves. I Have Spoke To The Local County Health Dept. About Many Electrical Hazards Being Created. Answer Is " We Are Not Trained To Do Electrical Inspections". Installeds Are Running Bell Wire Under Ground, Using Coax Tv Cable To Run 110V Controles. Using Nm Cable Under Ground. No Outside Diconnectes Being Installed. Under Water Electrical Splices Being Made Using Regular Wire Nuts And Rtv. Removal Of High Water Alarms Installed By Manufacturer. This Is Then Sold As A Replacement Part. It Is Eligel To Modify The Orginal Manufacturer Design. And On And On. We Need Help!
####	ELC	CHANGE	Not Sure....
####	ELC	CHANGE	Extend The CEc To Every Two Years Renewal.
####	ELC	CHANGE	I Think It All Works Pretty Well.
####	ELC	CHANGE	Make My Licence Valid In All States
####	ELC	CHANGE	More Officers On Code Enforcment.
####	ELC	CHANGE	Letting A/C And Plumbers Do Wiring
####	ELC	CHANGE	Verify Immigration Status Of All Applicants. I Know It Would Cost The State Money, But I'M A Firm Believer That Legal Residents Should Get The Jobs.
####	ELC	CHANGE	Change The Online Continuing Classes From Every Year To Every 3 Years And Lower The Fee To One Half, As Many Working Electricians In The Trade Cannot Afford The Exorbitant Fees You People Asses To Us. I Do Not Really Believe A Real Person Will Actually Read This Survey, But I Will Speak My Mind On This Subject!
####	ELC	CHANGE	I Would Ensure All Technical Advisory Boards Are Served By Individuals Who Are Knowledgeable And Qualified To Offer Specific Information And Advise Relative To The Regulated Industry. I Have Witnessed Public Membership On Some Technical Advisory Boards As Being Totally Non-Contributory. This Appointment Method Simple Reduces The Valuable Input That Could Otherwise Be Obtained From Technically Affluent Individuals.
####	ELC	CHANGE	Service
####	ELC	CHANGE	Cut The Continuing Education Time In Half And Make It Code Based Only
####	ELC	CHANGE	Require All Persons Employeed In Skilled Labor To Be A Citizon Of Texas First, A Legal Resident Second, And Valid Proof That They Are Trying All Legal Means To Secure Legal Citizenship If They Are Here Working Already. Texas Needs A Local Hire First Law. Similar To Alaska.

####	ELC	CHANGE	I Would Like To See All The Individual City Registrations Go Away And Each City Can Pull Their Required Data From The TDLR Database When We Apply For A Permit Instead Of Annual Renewals And Fees Each Year. Probably Cannot Get Away From The Fee Because Cities Wont Relinquish Their Funding But If TDLR Could Act As A Central Repository It Would Be A Great Time Saver And Introduce Uniformity Across The State.
####	ELC	CHANGE	If A Company Is In The Start Up Process, And Offering To Do Work, But Does Not Perform Said Work Or Gives The Work To A Licensed Contractor.....There Should Be No Prosecution. Obtaining Customers And Offering To Do Work With The Intent To To Do This Work After The Licensing Is Obtained Should Not Be Punishable. You Cannot Start A Business Without Having Customers Lined Up. My Personal Case Is Now Set To Go To The Soah Courts And I Stand To Loose \$2,000 That I Will Of Course Refuse To Pay, And Thus Force Me To Close My Company And Fire My Contractors And Employees. All So Some Prosecutor Can Place A Win In The Tally Box.
####	ELC	CHANGE	Get Rid Of The Spanish Tests For Licensees.
####	ELC	CHANGE	The Licenses Being Issued Needs To Have A Photo I.D. On It. Have A Passport Photo Sent In And A Copy Of Drive License Or I.D. Card For Proof. I Have Carded Workers On Job Sites And Found Some With More Than One License In Differtant Names, With No Proper I.D..
####	ELC	CHANGE	Make It Easier To Drop A License From The Data Base. For Instance, I Held An Electrical Contractor's License For Years And Have Now Quit Doing Electrical Contracting. I Stopped Renewing My Contractor's License And Now It Is Going To Appear That I Am Delinquent In Maintaining My Licensing Obligation When In Fact I Just Wanted To Stop Buying Insurance For A Business I No Longer Was Engaged In. I Also Had An Air Conditioning Contractor 's License And When I Quit That There Was A Provision Allowing The License To Be Reassigned As "No Contract Work".
####	ELC	CHANGE	That TDLR Could Take Your Experience Hours By Looking Up Your Work History Through Other Channels, Other Than From A Person Whom May Have No Concern For Your Future, Once You Are No Longer Employed By Them.
####	ELC	CHANGE	You Already Have Inspectors For Jobs - So Why Do We Still Need A Master Electrician ??
####	ELC	CHANGE	Honestly, I Would Begin Enforcing Drug Tests. I Would Make It Mandatory For Companies To Administer Drug Tests.
####	ELC	CHANGE	Make Our Information Private! No More Posting Our Addresses And Phone Numbers!
####	ELC	CHANGE	Maybe Have You Own Set Of Codes Statewide On Residential Electrical Wiring, So All Towns Would Have The Same Codes.

####		ELC	CHANGE	More Town House Meetings In Larger Cites - This Is Where A Greater Deal Of The Work Is. Start Education Program For Small Town Inspectors - One Inspector Towns. They Have A Speciality In One Of The Trades But Not Neccessarily Electrical. Some Small Town Have Actually Adopted Older Codes Because Either They Do Not Understand The New Code Or Are Not Willing To Subject There Customer Base With The Cost Of New Changes Ie The Arc Fault Request In The 2011 Nec.
####		ELC	CHANGE	Go Back To One Elect License For All Work Areas. Also What Maintenance In Plant License?
####		ELC	CHANGE	The Electrical Contractor Lic.
####		ELC	CHANGE	Not Making Us Put Our Company Name On Our Truck!! License Number Should Be Sufficient; Putting Our Company Name Permanently On The Truck Makes Us A Rolling Target For Thieves! We Have Had People Come Up To The Bed Of Trucks In Parking Lots And Lift Up Tarps To Steal Wire.
####		ELC	CHANGE	Quit Adopting By-Laws In Electrical Code That Standardize A Specific Product Eg. Arc Fault Breakers. Electricity Has Worked Just Fine For A Better Part Of A CEntury Without Them. They Are Costly And Very Difficult To Retro Fit At Times, The Additional Cost Is Usually Consumed By The Contractor Due To Nature Of The Bidding Process In An Economic Downturn.
####		ELC	CHANGE	To Hang Our CEiling Wire In Commercial And Must Only Use Our Only CEiling Grid Wire To Strap Our Mc Wire. Or Minimum Mc Lenght Being 10 Ft Instead Of 6Ft. In All Districts And Counties.
####		ELC	CHANGE	License All Trades In The Construction Field, Ie Sheetrockers, Framers, Masons, The Poeples Who Build Strucuture, There Are Building Codes They Need To Know, There Are Basic Electrical And Plumbing Codes They Should Know, There Is Some Fire Code To Know.
####		ELC	CHANGE	The Loss Of Opportunity That Use To Be Available To Those Completing University Studies In Electrical Who Then Did Not Have To Indenture Themselves To A Master Electrician For The Same Duration As An Uneducated Person (Especially And Uneducated Person Not Having To Complete An CErtified Apprentice Program.
####		ELC	CHANGE	Many Years Ago The School Districts Would Teach The Trades Example Electrical, Welding, A/C. What I Would Like To See Is The Trades To Be Taught Again At The High School Level In All The School District Around The State.
####		ELC	CHANGE	The Mention Of Any Term Related To A Service Requiring A State License (Electrical, Wiring, Lighting, Heating, AC, Plumbing Etc. Should Be Illegal For Any Newspaper, Local Magizine, Phone Book, Etc. To Publish Without An Attached License Number.
####		ELC	CHANGE	Process

####	ELC	CHANGE	The 4 Hour Continued Ed. That Should Be Removed. License Holders Should Take A 25 Question Test By Mail Every 3 Years Like Most States Do. If You Fail Then You Have To Take The 4 Hour Test Over! Not To Mention You Are Adding More Cost To Individuals. Cost Of Living Keeps Increasing While Wages Have Stayed The Same Or Like Many Whom I Have Talked With Have Had To Take A Pay Cut To Keep Their Jobs. Adding More Costs To Keep Our Licenses Makes It Harder To Stay In The Profession.
####	ELC	CHANGE	More Information Of License Requirements For Ex Offenders Who Seek Skilled Trade Employment
####	ELC	CHANGE	None Come To Mind.
####	ELC	CHANGE	None Come To Mind
####	ELC	CHANGE	Continuing Education For Apprentices Is Unnecessary. Most Are Lifetime Helper/Labor. Those That Want To Advance Are Getting Continuing Education To Achieve The Advancement.
####	ELC	CHANGE	Less Paper Work
####	ELC	CHANGE	Transfer From State To State
####	ELC	CHANGE	None It's Fine Where It Is.
####	ELC	CHANGE	Nothing
####	ELC	CHANGE	Nothing At This Time
####	ELC	CHANGE	TDLR To Give The Tests For Licenses.
####	ELC	CHANGE	Hold A Convention
####	ELC	CHANGE	Increase Number Of Enforcement Officials. The Laws Mean Nothing Without Enforcement.
####	ELC	CHANGE	Split The State Into Regions And Allow More Representation In The Local Areas Rather Than Just In Austin.
####	ELC	CHANGE	Prefer Renew Every Two Years.
####	ELC	CHANGE	Master License Exam Qualification Which Allows A Mix Of Education, 4 Year College Degree, And Field Experiece.
####	ELC	CHANGE	That All Electrical Co. Have Better Safety Programs And Furnished Equipment
####	ELC	CHANGE	Not Any
####	ELC	CHANGE	Before A Complaint Is Taken Or Placed Against A Licensee Make Sure The Licensee Was The Actual Person On The Customers Job. My Brother Is Also A License Holder And Many Times The Customer Doesnt Know Which One Of Us Was The Actual Contractor So They File On Both Our License Although I Was Never On The Customers Property Or Had Any Contact With The Customer At All. Just Be Sure Of The Facts Before Placing A Complaint Against A Licensee.
####	ELC	CHANGE	I Can't Think Of Any Changes Right Now.
####	ELC	CHANGE	Pay Sooner, Not More Than 30 Days As It Is Now.

####	ELC	CHANGE	The Amount Of Licenses You Give Out And To Who.Also I Would Go Into The System And Check Every Licsence Electrician For Criminal Records.
####	ELC	CHANGE	Prescreen Applicants For The Exam Better. We See To Many License Holders Who Can Not Apply The Nec.
####	ELC	CHANGE	Annual Continuing Education. Continuing Education Should Be Don On 3 Year Code Cycles.
####	ELC	CHANGE	Apprentice Electricians Should Not Have To Renew Their License Every Year Of Their Apprenticeship. Initially Apprentice License Should Suffice.
####	ELC	CHANGE	Not Having To Take The Electrical Law Portion Of The CEU's Every Year.
####	ELC	CHANGE	Require Inspectors To Be State Lic Like The Plumbers
####	ELC	CHANGE	Law: A Law That Would Require All Cities In The State Of Texas To Adhere To The Same National Electrical Code And Have A Consistency With All City Inspectors. The Intepretation Of The Electrical Codes Vary Greatly Among Inspectors In Major Cities And In Small Towns As They Grow.
####	ELC	CHANGE	I Would Not Make Continuing Education Program Each Year For Master Licensed Persons Mandatory. We Spent Enough Time, And Education To Get Our License, We Don't Need To Be Forced To Do It Every Year! I Would Also Offer At The Least A 1 To 3 Year License Upon Payment For All Those Years. Instead Of 1 Year At A Time. Texas Motor Vehicle Department Now Offers Up To 3 Years For The Purchase Of Our Window Sticker. It Is Great Not To Have To Worry About Getting A License Every Year!
####	ELC	CHANGE	More Informed Information On Electricians That Are Under Investigation With TDLR And Should Have A Special Page For Just That Area
####	ELC	CHANGE	Make Tests Harder
####	ELC	CHANGE	Rent-A-License. The Rules On Selling Electrical Work In Texas Is Clear. But The Practice With Brokers Is For Them To Sell The Work Without Regard For Licensure. The Franchise Sign Companies Within Texas Are Especially Guilty. The Rules Need To Be Changed Or Enforced.
####	ELC	CHANGE	A Direct Link To Forms
####	ELC	CHANGE	Turn Over The Licencing Back Over The The City.
####	ELC	CHANGE	License The Above!
####	ELC	CHANGE	Change The Look Of The Journeyman Card, Just An Idea
####	ELC	CHANGE	Do We Really Need That Many Licenses For The Electrical Trade?
####	ELC	CHANGE	Maybe Licenses
####	ELC	CHANGE	Fine Contractors Who Hire Illegals
####	ELC	CHANGE	Process

####	ELC	CHANGE	No, The Updates And Information On Electrical Work Good Where I Am Located; I Have Attended Meetings In Lubbock With TDLR Electrical Staff; Which We Were Able To Talk About Licenses Concerns And To Meet With TDLR.
####	ELC	CHANGE	Havemore Of A Presence In The Local Communities
####	ELC	CHANGE	Distribute Apprentice License Only Through Lic. Contractors, We Have One In Our Town That Works As An Electrician Under His App. Lic. He Is Taking Work From Others And Clearly Does Not Have Any Training. If License Were Given And Collected Back Through Contractors Then This Problem Would Go Away
####	ELC	CHANGE	The Ability To Suspend Or Put License On Hold For A Military Deployment. So We Don't Have To Immediately Do Our CEUs Upon Return. We Can Relax A Bit
####	ELC	CHANGE	Free Continuing Education
####	ELC	CHANGE	Hire More Prosecutors-Investigators-Etc----I Would Not Mind Paying An Extra \$ 50.00 More On My Contractors Licensed Fee Per Year--If I New That The Money Will Go To Hire More State Workers
####	ELC	CHANGE	Customer Service
####	ELC	CHANGE	Having To Track Down All The Electrical Contractors I Worked For In The Pass 10 Or 12 Years Just To Get My Hours Documented Then I Get The Run Around Them Telling Me I Dont Know How Long You Worked For Me An My Favorite One They Tell Me Is You Should Have Got Grandfathered In Back In2004 Or Why Should I Sign Ur Hours There No Money In It For Me .I Need Help Getting My Hours Signed. It Shouldbe A Law That All Master License Electrical Contractors Have To Report All Their Employees Hours Every Year Before Renewal Of License So Peoplelike Me Dont Stay Helpers For 12 Years Beforegetting A Journeymen License Thank You So If Y'All Could Me Out I Would Appreciate It.
####	ELC	CHANGE	Nothing As Of Yet.
####	ELC	CHANGE	I Believe That There Should Be A Different Classification For Individuals Who Took The Test From Those Grand Fathered In. No Grandfather Journeyman Should Get A Master With Out 8 Yrs Of Verified Field Experience.
####	ELC	CHANGE	Benefit For Renewal Of Licence ,Beacouse Right Now Electrician Need To Renewiev His Licence And Have Shoping For Cheaper Prices On Internet Schools And Just Cumulate Non Usefull Paper Home . Geting Education Without Any Value .
####	ELC	CHANGE	Nothing
####	ELC	CHANGE	If Not So Already, All New Work In Unincorporated Areas Should Be Permitted And Inspected And Installed Only By State Licensed Contractors. This CErtainly Would Increase Safety In Those Areas
####	ELC	CHANGE	That Would Be It.
####	ELC	CHANGE	Award Years Of Service

####	ELC	CHANGE	Make Continious Education Requirments More Strenuous And Make It About Learning Instead Of Fees. It Will Pay For It's Self From Liabilty Law Suits Quickly.
####	ELC	CHANGE	I Had A Difficulty Proving My Experience For Licensing. I Had To Get A Lower Level While I Try To Find Ways To Prove More.
####	ELC	CHANGE	Enforcement
####	ELC	CHANGE	More Classes
####	ELC	CHANGE	I Think Everthing Is Fair. Maybe Larger Fines For Not Having A Licensee.
####	ELC	CHANGE	Ticket More People Operating Without A License.
####	ELC	CHANGE	Make The License Good For Longer Period Of Time.
####	ELC	CHANGE	Do Your Job And Cut Out The Midelman
####	ELC	CHANGE	If The Safety Aspect Isn't Enforced I Would Disband Thetdlr
####	ELC	CHANGE	To Be Able To Get Next Level License, Without Waiting Years But But Taking Another Test Maybe Harder But Being Allowed Chance To Take Test
####	ELC	CHANGE	I Would Change The Yearly Training In All The HVAC, Electrical, And Plumbing. After So Many Years You Get Mostly Repeats. My Opinion Is Teach Only The New Changes. Let It Last 1 To 8 Hours If Needed, But Only Teach What Is New For That Year Or What In Planning To Be Changed.
####	ELC	CHANGE	What Rule Change? Change The Rule On CEU's. If I Must Set For 4 Hours I Would Like To Make It Worthwhile. Most Of The CEU Classes Are A Waste Of Time. How About Classes On New Products, Proper Record Or Bookkeeping, Etc.
####	ELC	CHANGE	The Annual Training Requirement. The On Line Training Is Not Very Good. Do Not Allow Vendors To Sell Contact Information.
####	ELC	CHANGE	Every Other Year For Test
####	ELC	CHANGE	Change The Liscense Renewals To Every Other Year.
####	ELC	CHANGE	License Renewal Be Every Two Years
####	ELC	CHANGE	Providing The Class To Improve One's Skill
####	ELC	CHANGE	Vehicle Signage Being Required On Non-Comapany Owned Vehicles
####	ELC	CHANGE	Re-Instate The State Building Contractor's License And Insurance Requirements.
####	ELC	CHANGE	To Add More Investigators In Order To Stop Unlicensed Electricians From Performing Electrial Work In The State Of Texas.
####	ELC	CHANGE	The Process Of Being Able To Do Continuing Ed. On-Line But Not License Renewal.
####	ELC	CHANGE	None
####	ELC	CHANGE	I Would Like TDLR To Have Law Enforcement Powers.
####	ELC	CHANGE	I Would Like Free Electrical Refresher Courses To Those Who Already Have Electrical License.

####	ELC	CHANGE	I Have Several But I Will List One. Require All Electricians Working In The State Of Texas To Hold A Current License To Include Chemical Processing Facilities, Manufacturng Facilities, And Other Now Exempt Entities Not Covered By Licensing Requirements. The Men And Women In These Chemical Plants Around The Golden Triangle Have Enjoyed Not Having A License For Too Long And Are Not Being Held To The Same Standard As Every Other Electrician In The State. The Are Protected From Liability By Being Shielded By Their Employers.
####	ELC	CHANGE	Make Fines And Punishments For Breaking The Laws More Severe.Make Local Authorities More Aware Of The Laws.And Take Proper Steps To Make Surte They Enforce The Laws. I Recently Reported An Illigal Contruction Project To The City Permit Office.They Went And Placed A Stop Work Order.Next Day I Went Back And Saw Work Being Done Again,So I Went Back And Complained Again.They Went And Ran Them Off.Next Day I Saw Them Again!They Kept Going Back Because No Fines ,No Action Was Being Taken Against Them.So This Time I Called The Police..Only Then Did They Stop Construction Because They Were Caught Ignoring The Stop Order.Obviously Something More Needs To Be Done.
####	ELC	CHANGE	If We Meet The Requirements Of The TDLR And Are In Good Standing With The TDLR I Wish We Did Not Have To Pay All The Additional Fees To The Indivual Citys Just To Regester With Them. I Do Understand Paying A Permit Fee To The City, But All The Additional Regerstion Fees?
####	ELC	CHANGE	Require All Cities To Be On The Same Code Year.
####	ELC	CHANGE	Begin An Apprenticeship Program As Other License And Other States Have. Make The Contractors License Progressive To Obtain.
####	ELC	CHANGE	Have Continuing Education Every Other
####	ELC	CHANGE	Make A Change In The Rule To Also Display Electrical Master's Number On All Vehicle And Letterhead

####		ELC	CHANGE	Enforcement Is Not Happening In Houston, Weather It Be City Of Houston Inspection Department Or State Inspectors. The Coh, Electrical Inspection Department Has Allowed And Continues To Allow The Metro Transit System And Their Contractors To Install Conduit Systems (With No Permits Or Inspections) By Un-Licensed Laborers Installing Duct Banks Containing 3" And 4" Pvc At Elevations As Close As 3" From The Surface. There Seems To Be Something Wrong With The System.

####		ELC	CHANGE	I Think Continuing Education Needs To Be Improved. I Think We Need At Least 20Hours Per Year. Also, The Quality Of Courses Out There Need To Be Looked At. I Took One Course For \$12.99 And All They Did Was Provide A Pdf Of Some Sections Of The Nec And Of The Texas Laws. You Didn't Have A Test Or Even Have To Read Anything. Just Move Your Mouse Every 15Min. And Pay The Fee And You're Done. That Is Very Ineffective.

####		ELC	CHANGE	That The Whole State Of Texas Works Of The Same Nec Code Year.
####		ELC	CHANGE	Renewal Every Two Or Three Years Rather Than Every Year.
####		ELC	CHANGE	Your Group Should Be Commended On The Rapid Transition In To The Newest Nec - Which Is No Simple Task On Something That Updates On The Average Of Every 3 Years! It Would Be Nice If You Could Encourage The Municipalities To Do The Same.

####		ELC	CHANGE	The Construction Divisions Should Be Grouped Together And The Rules Regarding Licensed Trade Requirements Standardized.
####		ELC	CHANGE	Like As It Is..
####		ELC	CHANGE	Make It Easier To Serve On Boards.
####		ELC	CHANGE	Licensing In English Only.

####		ELC	CHANGE	Waiting Period From Time Listed As Journeyman To Master When You Have Been Licensed As A Master In Another State.
####		ELC	CHANGE	Provide An Alternative For Electricians Seeking A Master Electrician's Confirmation Of Hours Worked. At Times They Are Deceased Difficult To Reach/Out Of The Country, Or In Some Cases Just Unresponsive To Requests For A Signature.
####		ELC	CHANGE	I Would Change The Law That Entitles Anybody To An Electrical Contractors License. That Should Only Be Served To A Master Electrician. This Should Not Be As It Is Where An Individual Can Get The Contractors License And Employ A Master Electrician. You Tell Me Where One Instance An Individual Would Stand Up To His Boss, The Boss Does Not Have A Thing To Loose.
####		ELC	CHANGE	I Think There Should Be Something To Help The Apprentices That Want To Further Their Career And Be Journeymen. I Have The Time On The Field But Can't Get Two Of The Masters I Gave Worked For To Sign Off On My Hours. Which Holds Me Up For 4,000 Hours Of My Time I Have Spent In The Electrical Field. There Should Be Some Way Of Tracking The Hours So If We Decide To Take The Test We Can. Without A Master Holding A Grudge Because We Left Them For Better Things.

Lack Of Trained, Qualified Electricians And New People Pursuing And Entering Our Trade.
####	ELC	NEXT	All Of The Above, But Also An Increase In Unskilled Laborers Holding Apprentice License. In My Opinion, There Should Be Another Tier Of Licensed Workers Titled Electrician Laborer. What Have You People At TDLR Done To Address This Burgeoning Problem In The State Of Texas, Or Do You Just Stand Idly By Ignore The Problem Altogether Like So Many Other Texas Agencies Like Food Stamps, Hud, Welfare, Cameron County Sheriffs Dept, Etc.??? If The Economy Improves There Will Be An Increase Int The Number Of Licensee Applications, Are You All Prepared To Handle The Increase/Influx That This Will Bring In The Next Couple Of Years???

####	ELC	NEXT	That Is A Pretty Good Topic I Think The Trade Has Become Over Populated And Will Have A Great Impact In All Sides Especially Licensees And In Constructions I Will Take A Toll Pretty Hard . ####	ELC	NEXT	All Of The Above.
####	ELC	NEXT	1) EPA Is Silling Our Whole Country, They Are Making Is So Tough On The Industry That No One Want To Build. 2) Until The Economy Gets Better What Little Work Is Out There Everyone Is Trying To Get It And Doing It For Nothing. 3) Crack Down On All The Eligal Alliens Being Allowed To Work In This Country, I Am Not Apposed To Anyone Coming To This Country And Making A Better Life For Thmeself But Do It Leagealy And Follow The Laws Of Our Country, Not Us Changing Our Laws And Rules To Accomidate Them. That Way They Can Pay There Fair Share Of The Taxes And Up-Keep For This Country. As The Rest Of The Law Abiding Folkes In This Great State And Country.
####	ELC	NEXT	Hopefully Constuction Will Get Moving, Disposable Income, Lack Of Banks Lending To Small Businesses.
####	ELC	NEXT	Increase In Population, EPA Regulations, Rise In Construction
####	ELC	NEXT	The Cost Of Being Licesend Is Causing More 'Bandit' Sign Company Operators, The Longer It Goes, The More There Will Be. Everyone Wants To Save Money, So It Encourages Those Outside The Law To Continue Or Start. Easy To Slip In And Hard To Notice A 'Bandit' Sign, Especially In An Unincorporated Area.

####	ELC	NEXT	We Need To Bring The Teaching Of Trades In Texas High Schools Back,In San Antonio All Trades Have Been Remove, I Have Not Seen A Computer Installed Or Repair Electrical Or Plumbing Problems.I Have Seen This In My Inspections New And Old School.
####	ELC	NEXT	Decrease In Construction (We Are Feeling The Effects Right Now) And Decrease In Disposable Income (Price Of Fuel And Material Are Very Expensive)
####	ELC	NEXT	Increases Cost Of Regulation/Licensing For The Small Business Increase In Population Decrease In Disposable Income

####	ELC	NEXT	TDLR Is Giving Away Contractors Or Master Licenses To Unqualified People And Even To Undocumented Workers
####	ELC	NEXT	Can I Add One More? Lisited In Order Of Inportance. 1-Increase In Competition From Un Licensees, (Bad) 2-Increase In Licensees, (Competition,) I Do Not Have A Problem With This If I Am Competing With Others That Follow The Rules. 3-Rise In Construction (Hoping) Hiring Employees Is A Problem Now Since Most People We Try To Hire Can Not Pass A Drug Test, Have A Criminal History, Or Feel They Would Rather Keep On Having The Government Take Care Of Them Instead Of Having To Work For A Living.
####	ELC	NEXT	Lack Of Enforcement Of Existing Laws. Lack Of Inspectors To Enforce Existing Laws. Lack Of Truly Qualified Craftsmen.
####	ELC	NEXT	Decrease In Disposable Income, Increase In Licensees
####	ELC	NEXT	World Economy Increase In Gas Cost Not Enough Good Electricians
####	ELC	NEXT	Increase In Licensee, Decrease In Income Due To More Comprotition
####	ELC	NEXT	Increase In Licensees, Drilling Increases. And Rising Gas Prices Will Affect The Rural Areas Negatively.
####	ELC	NEXT	Increase In Population Increase In Licensees Decrease In Disposable Income

####	ELC	NEXT	Disposable Income
####	ELC	NEXT	Decrease In Disposable Income.
####	ELC	NEXT	Depends On The Election

####	ELC	NEXT	1) Need To Update/Repair Systems And Equipment That Are Very Old And Wearing Out And The Corresponding Technology That Goes Along With Them 2) Increasing Demand On Systems And Equipment Due To Growing Usage 3) And Possibly The Biggest Is The Lack Of Enough Skilled And Trained Workers
####	ELC	NEXT	Increase And/Or Decrease Of Oil And Power Plants.
####	ELC	NEXT	Since I Focus On Energy Reduction Through Lighting, I See Our Demand Going Up. With Cost Of Energy Continuing To Grow, More Qualified Individuals Will Be Needed To Meet The Demand.
####	ELC	NEXT	Non Safety Regulations Are Killing Businesses. The State Has Given Too Much Responsibility To Cities To Police Industries. I Expect More Regulations And Higher Permit Fees By The City Of Houston. Decreased Construction. Decreased Disposable Income.
####	ELC	NEXT	I'M 70 Years Old So Old Age Will Have The Largest Impact On Mine. Other Than That, Increased Govt Taxes, Regulations, The Cost Of Gasoline, And Other Overhead Items Will Have The Largest Impact.
####	ELC	NEXT	Rise In Construction
####	ELC	NEXT	Increase In Population, Decrease In Disposable Income, Changes To Or Additional Enviromental Laws. It Appears That We Are Going To Have A Few Years Of Very Hot Summers And Warm Winters. This Will Impact The Industry Emmensely, We Will See And Increase In Licensees And Businesses That Will Hurt Us During The Turn-Down That Will Eventually Come.

####	ELC	NEXT	Compact Floresent Requirements For Light Bulbs. They Do Not Dim. The Shift For Prefabricated Work To Be Manufactured Without Electrical Licensing By Electrical Contractors. The Drop In Wages For A Licensed Electrician.
####	ELC	NEXT	None. I Do Instrumentation, You Just Require Me Pay License Fee.
####	ELC	NEXT	I Am An Industrial Electrical Planner, Have Been An Industrial Electrical Supervisor & An Industrial Electrician. The Main Issue I See Coming Is That No One Is Training The Next Generation Of Industrial Electricians.
####	ELC	NEXT	1. Rise In Construction Cost 2. Increase In Population Resulting In More Unlicensed Electricians 3. Less Journeyman Due To No Set Length A Person May Work As An Apprentice
####	ELC	NEXT	Rapid Licensure Of Undocumented Aliens Is Destroying Our Industry. Employers Are Using This Cheap Labor For Higher Profits And Lower Wages. These Illegals Will Leave And Start Doing Electrical Work Once They Learn Enough To Burn A House Down. I Catch Them At Home Depot Purchasing Bulk Materials And Have Even Carded Them.

####	ELC	NEXT	1. Increase In Unlicensed And Undocumented "Contractors", Less New Construction, And Too Much Govt. Regulation.
####	ELC	NEXT	(1) Increase In Population (2) Lower Taxes In The State Of Texas Will Bring More Construction (3) Gas Prices
####	ELC	NEXT	More Commercial & Industrial Jobs. Increase Of Licensees. Decrease In Disposable Income.
