11-Apr		POL	CHANGE	You Need To Relax On The Requirements For Polygraph Schools. The Rules You Are Using Are Old Rules That Included An Internship Process Not Just Class Time. 430 Hours Goes Way Past What Polygraph Schools Throughout The Country Are Doing. We Need To Require Examiners To Doing Continuing Ed. Make It A Requirement To Use No Significant Response Or Significant Response For Screening Test.

11-Apr		POL	CHANGE	Reduction Of The Hours Required For A Polygraph School Decision Terminology--Allow Sr And Nsr Conclusions Allow Licensing Of Retired Government Examiners Allow Cit Testing Mandate Continueing Education Hours To Maintain License Mandate Eda Requirements For Examinations Allow The Disclosure Of Polygraph Results To Child Protective Services, Without Examinee Consent, In Order To Be Allowed To Report Child Abuse (Conflict Of Laws Between Polygraph Act And Texas Family Code).

10-Apr		POL	CHANGE	Combine License In Areas That Ar Similar Or A Reduction In The Fee Based Tax For Multiple Licenses
4-Apr		POL	CHANGE	The Polygraph Examiner's Act Is Extremely Restrictive In Requiring The Terminology Used To Describe The Results Of A Polygraph; Deception Indicated (Di), No Deception Indicated (Ndi), Inconclusive (Inc) And No Opinion (No). These Categories Are Not Conducive Results For Various Types Of Polygraphs Techniques/Types. It Is Therefore Recommended That The Verbiage In The Act Be Less Restrictive, Allowing The Examiner To Provide A Result Synonymous To Those Results Allowed By The Act. This Freedom Will Give The Examiner The Latitude Of Providing Exam Results In A Format That Is Best Suited For The Type Of Examination Conducted (Screening Exam Versus A Criminal Specific Exam Or Pcsot Exam. For Example, An Examiner Should Be Allowed To Record A Polygraph Result Of Significant Response Or No Significant Response As Di/Ndi On Screening Examinations. However, The Should Continue To Require Examiners To Provide The Examination Results To The Examinee, When Requested By The Examinee.
28-Mar		POL	CHANGE	Three Laws/Rules Should Be Changed: 1. Section 1703.203 Should Be Reduced In Listing Qualifications For Licensing. Eliminate (A) (2) (B) And Change (A) Eliminating The Last Word "Or". Eliminate (A) (3) (B) And The Final Word In (A), "Or". This Proposal Would Cause TDLR Rule 88.20 And 88.100 To Be Reworded. This Change Would Make Sure All Polygraph Examiners In Texas Are College Graduates And Graduates Of A Department Approved Polygraph Course Of Instruction. 2. Section 1703.255 Should Be Changed. In Paragraph (A), The Word "May" Should Be Replaced With The Word, "Will". Paragraph (B) Should Be Changed To Read, "30 Hours Of Polygraph Related Instruction Every Two Years Is Mandated For Each Polygraph Licensee. TDLR Will Require Documentation Of Such Training At The Time Of License Renewal Of Each Licensee." This Suggested Change Will Further Reduce The Likelihood That A Citizen Of The State Of Texas Will Have Reason To Complain To The Department About Improper Actions Of Licensees. 3. Change TDLR Rule 88.100 So That Polygraph Courses Approved By The Department Require Only The Number Of Academic Hours Of Instruction To Be Less Than Those Stated In 88.100 Which Were Written To Include The
