

Please share this with all of your rescue contacts! We need to show them how big the problem is here in Texas! They're the ones that are going to change it! They WILL listen!!!!
Overall TDLR is easy and convenient as far as the electrical part. Way better than most states out there
The fact that TDLR is asking for ways to improve things is great! And TDLR acts on them too now?! Even better! There is no other state out there as proactive as TDLR. Very impressive. Thanks!!!!
prompt service in sending me my renewal cosmetology certificate
There are some of us new guys that are great electricians and know the new stuff better than the old guys. Do u think you guys will grandfather guys in again? Just need the same chance
Early in the game to make any other observations. Appreciate the work the board has done through DHHS to always maintain the highest level of standards. I hope this never gets compromised.
Being a Licensed Dietitian in Texas and a new member of the Dietitians Advisory Board I was impressed how well our Board has been welcomed to TDLR. I was unable to attend the Austin Strategic Planning session but look forward to be able to see other questions and comments. Looking forward to working with TDLR in the future!
Because of your investigations into a certain Cosmetology School, I was able to get 1200 released, an invalid debt removed AND have discovered MORE shady business dealings with this individual and was able to FIND HIM. Thank you for your help.
I appreciate the opportunity to meet with you today in Houston. The discussion was greatly appreciated.
What you are doing well? The license renewals are way easier than they used to be.. what are you doing not so well? Enforcement. We pay for our license and we pay for insurance and every day in Lubbock I see unlicensed contractors and I even see contractors that are licensed but no permit or they get permits but never call for a final..
I have turned in multiple unlicensed contractors and clear violations and nothing has ever been done. So definitely not doing "enforcing" well.
I've called TDLR before and had a guy tell me to read the regs, but today I called and used the star button to have them call me back and Jenny from TDLR answered my questions in a very professional manner! Thank you Jenny...
What do you don't do well inform to unemployed cosmetology instructors when you are going to have the update cosmetology meetings ☺☐for practice test
Nothing as far as I can tell. You just let unlicensed electricians run rapid in cleburne TX and charge the people with licenses up the as_. And absolutely do nothing about it.. Look your all TALK and want to be payed for it..if your NOT. Do something about it..I'm calling your bluff. Do something about or shut up and go away. Your call..
The TDLR needs to have a data base that electrical contractors report apprentice hours into on a monthly basis.
You are overlooking the wrong people and targeting the ones that are playing by the rules .
Reply - completely agree with
Reply - They claim they can only enforce those that have a TDLR . Kind of dumb if u ask me
I went to a class for hvac and thought it would give me continue education credits but the instructor said it would cost him to be able to give those credits like 800 bucks. Wish that every class would count toward my credits.
Renewal of license much easier than before in Cosmetology.
Hum,,,can't think of anything
Cracking down on unlicensed activity!

Deben de elixir examen estatal a todos sin excepción si quieren obtener la licencia. De cosmetologia o de barbero y. Inspección más seguidoSee Translation: They must require state exam to all without exception if you want to obtain the license. Cosmetology or barber and. Inspection More often

When are you coming to McAllen TX

Lowered our fees and always there to respond for any questions we have

What are you doing well? Nothing. I miss our cosmetology commission. TDLR is asinine

License renewal & Spa chair cleansing form are improved. The previous form was not smart.

Letting these company get away with no TDLR on their truck and no consequences

I pay for my ACR tech license renewal on last October but i never receive my new license.

Porque las manicuristas ponen pestañas y hacen wax?????See Translation: Because the nail put eyelashes and make wax?????
