Project Status Update (PSU) forms

RAS 2015-01

Effective Date: November 2, 2015
RAS Procedures: Project Status Update (PSU) forms

Project Status Update (PSU) forms submitted by a Registered Accessibility Specialist (RAS) shall be submitted as instructed on the form.

“Each change in applicable project status requires the submittal of a new form to the Department and each new form must contain the Project Information, RAS information and RAS signature. In addition, each form must reflect only the new status change. Forms that are illegible, incomplete and/or with multiple updates will not be processed.”

All forms must be filled in with black or blue ink.

The purpose of this reiteration comes from the Department receiving several incorrect PSU forms.
