- Submit a timed topic outline - This is a class schedule that shows the amount of time spent on each topic. The outline must show a reference to the course materials used for each topic. A separate timed outline is required for each delivery method.

The outline must be detailed and contain enough information for staff to determine what material is being taught in each part of the course. The detail sections of the course content must be shown in the timed outline.

- Submit copies of course materials - The application must be filed with all related course materials referenced in the outline above. This includes video tapes, computer software, textbooks, handouts and any other presentation media. For Internet based courses, forward a link to your website and a means for the staff to review the course. Materials on how the course is presented are required. If you wish to have your course materials returned, submit pre-paid return packaging with your application.

You must provide enough course material information (slides, instructor notes, etc) so that the staff can determine if the course covers the material in a manner that is conducive to learning.

Course materials must have the following characteristics:

- appropriate grammar, spelling and punctuation
 - appropriate illustrations and graphics to show concepts not easily explained in words
 - a comprehensive presentation of subject matter intended to increase or support the skills or competence of the licensee
- Course application fee - Each course must be submitted on a separate course application along with the course application fee.
7. **Attendance Verification** - For each delivery method, providers must describe their procedures for verifying licensee attendance as required by Section 59.51(I) which reads:

“Providers are responsible for the conduct and administration of their courses, including the punctuality of classroom sessions, verification of participant attendance and instructor performance. Providers shall ensure that their courses are administered in substantially the same manner as represented in the application for course approval.”

Examples:

For a classroom course:

The provider might require photo ID and TDLR license card at sign in and require the licensee to sign the attendance roster at the end of the course. Provider would be required to ensure the licensee spends at least the approved amount of time taking the course.

For an internet based course:

The course could be timed to ensure the licensee spends the approved amount of time taking the course. In addition, the provider could ask the licensee a list of personal questions (e.g. shoe size, hair color, favorite actor etc) during registration. These same questions could then be asked during the course (at least 2 per approved hour) for licensee verification.

NOTE - Courses or portions of courses that promote a manufacturer's product will NOT be considered for approval.

No course may be advertised as an approved course unless it is approved by the Texas Department of Licensing and Regulation. All advertising shall follow department requirements as stated in Section 59.51(k).

A course is valid for a period of **one year** from the date of approval. An expiration date will be shown on the course approval certificate. If a Provider's registration is terminated for any reason, all course approvals for that Provider will also terminate.
