Statement of Assurance

Information Relating to Community Safety Education Act

On September 1, 2018 the Texas Department of Licensing and Regulation (TDLR) adopted rules for Senate Bill 30, the Community Safety Education Act. The Act requires that driver education and driving safety curriculum include information relating to citizen and law enforcement interaction procedures for traffic stops. The TDLR-approved video and instructional presentation must be incorporated in your curriculum for all driver education courses and/or driving safety courses. Providers should also inform each student of the survey developed by TDLR. This survey is vital in helping TDLR understand the impact of the video across the state.

Each driver education school, parent taught course provider, and driving safety course provider is required to submit this Statement of Assurance form to TDLR **no later than February 1, 2019. Please complete the information below and return this page by mail or email to TDLR (see letterhead).**

I certify that I will update my curriculum to include the Community Safety Education Act video and instructional presentation as required by S.B. 30, 85th Regular Session, and by the Texas Department of Licensing and Regulation. I certify that the Community Safety Education Act Video and instructional presentation has been incorporated into my approved curriculum as required by law.
