In-Plant Inspection – Deviation Report

Do not complete this form if there are no deviations.

A. **Inspector Reg. #IHI-** _____ **Inspection Date:** _____

Page _____ **of** _____ **Manufacturer Reg. #IHM-** _____

B. **Description of Deviations Observed**

REMINDER: Deviations that are not cleared during the current inspection must be cleared before the unit or units can be labeled or shipped. Another inspection is required to clear these deviations. If a revision to plans is required to clear the deviation, then the revision must be approved by the manufacturer's design review agency (DRA) before the inspector can clear the deviation (actual approved copy of revision must be on hand). An okay from an engineer is not adequate to clear a deviation.

Item #	Unit ID Number	Description of Deviation Observed	Description of Corrective Action Observed	References

Use continuation sheet on page 2 of form if more space is needed
